Creative guide. Connecting, low key and hands-on. Likes to share and to cooperate. Has a substantial track record on designing library concepts and award winning library interiors during the last 25 years. He played a leading role in the development of library design in the Netherlands, and has been planning libraries in Belgium, the UK, Norway and recently Germany. As a design consultant on international library design, he contributes to design teams across Europe. He feels the library is the best place society has to create self-conscious citizens, and believes libraries have to inspire to enrich and should become 3RD places for all in order to do so.
